Project # 1 - David & Goliath Paper

In two or more type-written, double-spaced pages, please write about the following, devoting at least one-two paragraphs to each:

- 1) What is the theme of this book? Describe it in your own words.
- 2) Summarize and describe one example by which Malcolm Gladwell illustrates the theme.
- 3) The lives of several people were examined throughout this book. To which person do you best relate (must use a different example from #2 above)? How does this person's struggle speak to you? Why? Be specific.
- 4) How can you apply the theme of this book to your life? Give a specific example of a "giant" you are currently facing or an important decision you anticipate making about your future. How has reading this book affected the way you view this "giant" or decision? Describe how you would have handled the situation before you read this book, and how you anticipate handling it now, if there is a difference.
